

We live in
Adrian,
Missouri which
is right in the
middle of the
United States.

Adrian is a small town with a population of about 1800 people. We are definitely a farming community.

Downtown businesses

Heritage Tractor - John Deere dealership

Our school has kindergarten-12th grade all in the same building. There are about 650 students in our building. Our mascot is the Blackhawk. Chief Blackhawk was a great leader of the Sauk American Indian tribe that had settled in this area.

In October we had Homecoming Week. Homecoming is when the football team has played a few away games and now they are coming home to play. The alumni and former staff are invited back to participate in homecoming. The week is full of dress up days and on Friday there is a pep assembly and a parade.

At the homecoming pep assembly, the band plays, the cheerleaders perform, and the football team comes out to get the crowd fired up. Then, the spirit stick is given to the class that shows the most spirit throughout the week. This year, the 6th grade class won. They were really excited.

The Middle School students (grades 6-8) have two dances every year. The fall dance, in November, had a hoe-down/western theme.

We've also done some school work too.

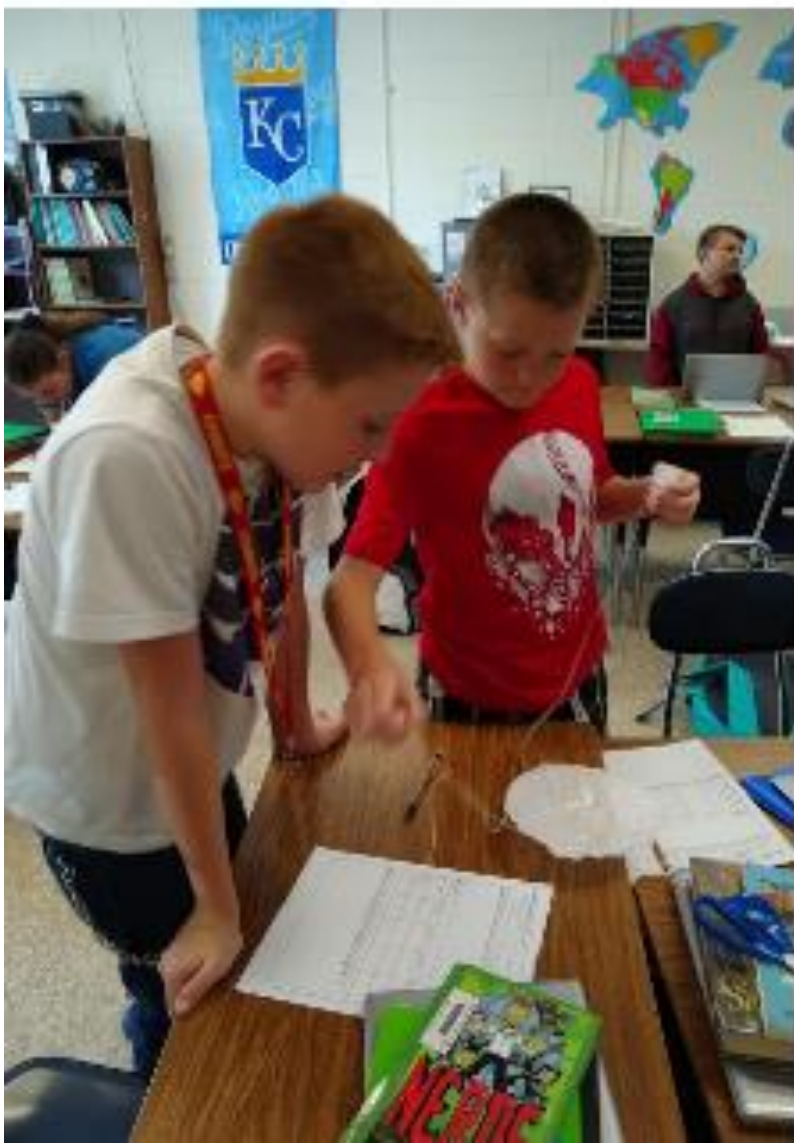

Looking at onion skin cells under the microscope and drawing what we see.

Making stop-motion videos showing what happens in a cell.

Testing what makes parachutes
fall more slowly.

That's a little bit about us. Tell us about your school year so far.
